✉ subhransu.pradhan@outlook.com

Goal-oriented professional with an experience of **4 years** in executing full life-cycle development projects; ramping-up projects within time, budget & quality parameters, as per project management & best practice guidelines; preferably in **Bangalore**

Professional Experience

Since Mar'17   Here Technologies as Software Engineer
Key Result Areas:

- Developing software solutions by studying information needs, conferring with users & studying systems flow, data usage & work processes
- Understanding the process requirements and providing use cases for business, functional & technical requirements
- Interacting with users for requirement gathering; preparing functional specifications and low-level design documents
- Participating in daily defect meetings with Project Manager & Development Team; identifying gaps & suggesting relevant solutions
- Creating & sharing the Daily Status Report (DSR) including key highlights, open defects, number of test cases executed / pending, and so on with the Project Manager
- Supervising the maintenance of program modules including operational support, problem resolution, production support, preventative & corrective maintenance and enhancements

Highlights:

- Improved the performance of a Sign Injection Service using mongo DB, query optimisation and lot of small changes, that can handle 1.8 Billion requests per day
- Created a custom annotation that can be used in multiple methods, using Spring AOP
- Automated the Wide Area Task, which is helping the company to reduce 50 manpower every day
- Played a key role in automation of Sampling Services challenges during the execution of projects
- Managed release of Sign Injection Service within an extremely short timeline, delivering it for testing ahead of schedule

Previous Experience

Jun'14 – Mar'17   Zycus Info Tech Pvt. Ltd. as **Associate Software Engineer**
Key Result Areas:

- Introduced time zone though out the product & improved performance of the queries up to 800%
- Managed all the scheduling activity & worked on bulk update activity
- Assisted in determining operational feasibility through analysis, problem definition, requirement analysis & proposing solutions
- Documented software solutions through flowcharts, layouts, diagrams, charts, code comments and clear code
- Interacted with client for enhancement & change request, change of scope, change testing & status report of team
- Liaised with testing department for preparation of test cases required for testing of modules

Highlights:

- Acknowledged as Most Promising Employee for Jan'15 & Mar'16
- Achieved Second position in Zycus Hackathon in Dec'15

Core Competencies

- Software Development
- Project Execution
- Daily Status Report
- Requirement Gathering
- Scripting & Documentation
- Cross-functional Coordination
- Client Relationship
- Team Building & Leadership

Education

- B.Tech. (Computer Science & Engineering) from SOA University (ITER) in 2014, CGPA- 8.46

Technical Skills

- JAVA 8
- Multi-Threading
- Design Pattern
- Spring Boot
- Spring AOP
- Spring MVC
- Hibernate
- Java Script
- jQuery
- Maven
- Mongo DB
- Apache Tomcat
- JUnit
